PROFILE

Cryptocurrency research analyst, journalist, and editor with over 5 years of dedicated experience in the digital asset industry. I have a wide range of expertise, from market price analysis, breaking news articles, Web3 project evaluation, and onchain data research.

I have written over 2500 news and analysis articles, managed over 7,500 articles as the managing editor, and written over 30 deep-dive reports as a research analyst. Breaking down technical information into palatable articles is one of my strengths, as I have a strong sense of drafting detailed and concise technical and non-technical pieces.

EXPERIENCE

AMBCrypto, Bengaluru, India - *Cryptocurrency Journalist*

JAN 2019 - APR 2021

- Drafted over 1,500 articles for the website
- Covered topics include market predictions, fundamental and onchain analysis, web3 projects, interview-based pieces, and news reporting
- Collaborated closely with the sales and marketing teams
- Curated and managed more than 300 sponsored or PR articles

AMBCrypto, Bengaluru, India - *Team Manager*

APR 2021 - DEC 2021

- Managed a team of journalists as a Manager
- Directed the team's focus toward research-based and on-chain-driven articles, which included a metric-inclusive approach
- Emphasized coverage related to institutional and retail investors
- Supervised a separate group of sponsored or PR article writers
- Conducted training sessions for new writers
- Conducted regular feedback sessions to assess performance and foster improvement
- Drafted an additional 500 articles

Watcher Guru, Texas, United States- *Editorial Manager*

JAN 2022 - OCT 2023

- Managed the approval, editorial, and publication of daily articles
- Oversaw the publication of over 7,500 articles
- Articles averaged over 50,000 impressions on Twitter
- Collaborated closely with sponsored content, ensuring compliance with ethical and industry standards
- Drafted on-chain and metric-based articles encompassing technical analysis, blockchain activity, emerging Web3 trends, and market macroscopic evaluation
- Emphasized the importance of SEO and keyword ranking, keeping writers informed about new keywords and ranking topics to enhance website engagement and organic growth

Cryptonary, London, United Kingdom- *Crypto Research Analyst*

JAN 2024- JULY 2024

- Explored new opportunities in the industry for the subscribed user base, drafting deep-dive reports on potential protocols with high ROIs
- Identified assets in trending narratives like AI, DePin, SociaFi, and RWAs, and performed constant evaluation if the projects were losing momentum or carrying continuous improvements
- Solved user base queries on the Discord community to assist them with trading opportunities, answered CEXs and DEXs-related issues, and cleared any confusion regarding rising or existing projects covered by the organization

Cointelegraph, New York, United States- *Markets Writer*

AUG 2024-JUL 2026

- Produced daily market analysis covering Bitcoin, Ethereum and major altcoins using Glassnode, CryptoQuant, CoinGlass, TradingView and macroeconomic data.
- Covered close to 30-40 publications per month around ETF developments, Federal Reserve policy, derivatives positioning and on-chain metrics for institutional and retail audiences.
- Consistently delivered breaking market coverage under tight editorial deadlines.

-
-

EDUCATION

PES College of Engineering, Mandya, Karnataka, India - *Automobile Engineering*
